Mercantile Agencies.

FALL OF 1912 AND SPRING OF 1913.

HEIKES HUNTSVILLE TREES.

JUNE, 1912.

ADVANCE LIST.

PRICES ON REQUEST.

Except where prices are agreed upon these quotations are subject to change without notice.

The usual Terms and Conditions govern these quotations.

Combination Car Lots.

Prices will be based on delivery to station at Huntsville, the price of boxes to be added. In car lots in bulk no charge will be made for packing.

To those who order in less than car lots and wish to take advantage of our plan to deliver to Distributing Points we must add to the prices quoted in this list the cost of freight from Huntsville to these points on a car lot basis, and we will then prepay the freight to the point of distribution. This plan insures low freight rates and quick time. Such orders will be packed in boxes at Huntsville and combined to make up car lots and shipment promptly made to distributing points and forwarded from there over the various railroads to destination. Car lot orders will go direct from Huntsville to destination, and can be shipped at any time after September 20th to March 15th, except a short time in mid-winter.

Distributing Points.

We are making St. Louis, Mo., Rochester, N. Y., Philadelphia, Pa., Mt. Pleasant, Texas, Toppenish, Wash., N. Yakima, Wash., Portland, Ore., Grand Junction, Colo., and Salt Lake City, Utah, distributing points for orders in less than car lots, to be shipped from Huntsville on the dates named below. No charge for drayage or transfer at these points.

FOR ST. LOUIS—Early shipments from September 20th to October 10th; late shipments from October 25th to December 10th, and in Spring.

FOR PHILADELPHIA AND ROCHESTER—November 1st and in Spring.

FOR MT. PLEASANT, TEXAS—October 10th to December 15th.

FOR PORTLAND, ORE.—November 1st to December 15th.

FOR TOPPENISH, WASH.—November 1st to December 15th.

FOR NORTH YAKIMA, WASH.—November 1st to December 15th.

FOR GRAND JUNCTION, COL.—October 15th to December 1st and in Spring.

FOR SALT LAKE CITY, UTAH—November 1st to December 15th.

This offer to ship to distributing points will not apply if shipment is required at other than the above named dates. It sometimes happens that we cannot arrange to make up combination car lots to suit all strictly within the dates named. It will be necessary to arrange the dates for shipments as orders are received.

For 100 rates add 1 cent each; for 10 rates add 2½ cents each to the 100 rates.

PEARS: The pears we offer are all worked on French Pear Seedlings 7-12 mm, branched roots. In grafting pears we use the first cut only. Kieffer, from grafts, grow up tall and straight in one year of sufficient height to cut back to the proper height to form heads for two year old trees.

KIEFFER PEARS---Two Years, Grafted on Branched French Pear Seedlings, 7-12mm.

	CIPHER.	Per 1000

	2 to 3 feet, more or less branched	<i>Orbit</i>

PEACH TREES---One Year. On Peach. Leading Varieties.

Our peach trees are budded on seedlings grown from Tennessee and Alabama natural pits. They are free from Aphis, Root-knot and Crown-Gall. We can supply beautiful large, medium and small-sized trees. The land upon which our peach trees are grown produces a well-matured tree, with fine fibrous roots. The San Jose Scale, Yellows and Rosette are unknown in this section and we have been careful not to bring in any buds from affected localities.

	CIPHER	Per 1000

PECAN SEEDLINGS. Gulf Coast Thin Shell.

We have a very fine lot of two and three year old seedlings grown at Huntsville. These trees are grown from selected nuts collected along the Gulf Coast in Southern Mississippi and Louisiana, where the choicest thin shell nuts are produced. We can supply any size from one foot upward to five feet.

	CIPHER	Per 1000
Two and three years, 12 to 18 inches.....	<i>Patent</i>	
Two and three years, 18 to 24 inches	<i>Paddle</i>	
Two and three years, 2 to 3 feet.....	<i>Pebble</i>	
Two and three years, 3 to 4 feet.....	<i>Pellet</i>	
Two and three years, 4 to 5 feet.....	<i>Petted</i>	

ROSES--Field Grown. Budded.

The No. 1 plants will have three or more branches and will be cut back to 24 to 30 inches. The roots are very fine. We make a grade of Roses called No. 1½. This grade is made up of plants just under No. 1, such as do not have the required number of branches or slightly under weight and height, and make a very nice grade for mailing.

The plants under No. 1½ we class as No. 2. We recommend them for transplanting.

	CIPHER.	Per 100	Per 1000

KUDZU VINE. Two Years Roots, One Year Tops.

The Kudzu Vine is hardy, grows with remarkable rapidity—from 40 to 60 feet in a single season after the root is well established—and its foliage, consisting chiefly of very large leaves, is luxuriant and healthy. It is now being extensively planted both in the North and South to cover arbors and verandas. In the North the plant dies to the ground in the winter.

PRIVET.

AMOR RIVER PRIVET. The Best Strain. More Nearly Evergreen Than Any Other Strain.
